

Sepsis Alliance Connect- Privacy Policy

Sepsis Alliance is sensitive to the privacy of our participants of Sepsis Alliance Connect (“the Service”). We keenly recognize the need for appropriate protection and management of any personal information provided to us via this Service. We’ve established this Privacy Policy to assist you in understanding the type of information we collect and how that information is used. This Service is owned and controlled by Sepsis Alliance. By accessing this Service, you acknowledge the terms and conditions set forth herein. While we reserve the right to change these policies from time to time, without notice and at our sole discretion, we expect to notify members by email of any significant changes to our policies

1) What personally identifiable information does Sepsis Alliance collect from you?

Sepsis Alliance collects information from our users at several different points on our Service. In general, you cannot access the Service without a username and password, which most often are provided to you by Sepsis Alliance or one of its representatives. We also collect an email address. We therefore know what you do within the Service. For example, we record visiting domains and the internet addresses of the domains from which people visit us to analyze a user’s session. The user’s browser also lets us know the type of computer and operating system being used.

Sepsis Alliance does NOT collect nor store information about any other online activities outside the Service.

2) How does Sepsis Alliance collect and use information?

Sepsis Alliance is the owner of the information collected on this site. We will not sell, share, trade or rent this information to others in ways that are different from what is disclosed in this privacy policy. Sepsis Alliance collects information from several points on our Service.

We track, record, and analyze event attendance information. We record that information so that we may better improve the service. We collect and store results of surveys on the platform. WE DO NOT AND WILL NOT SELL ANY INFORMATION TO THIRD PARTIES and reporting to any third-party is always done without any personally identifiable information.

We also use the information to identify you, by your display name only, within the Service. This is purposefully done to build social connections between you and the other participants within any virtual meeting rooms you may join.

We also may record your name, image, and voice as part of a “recorded event.” We may then replay that event within our interface so that more members can utilize the event from our library. Every recorded event is noted that it is a recorded event so that you may decide whether you want to participate in that event. You may decide to participate in the event, but without your image displaying. Your name will still appear. If you do not want your name, your image or your voice to be recorded, then you must not attend the event. Attending the event gives Sepsis Alliance your permission to use your image, voice and name within its recordings and you cannot make any claim of ownership of that recording. Sepsis Alliance will own it in its entirety.

3) What is Sepsis Alliance’s policy regarding links to other Services and third parties?

Sepsis Alliance’s Service may contain links to other sites on the Internet, which are owned and operated by Sepsis Alliance’s partners, customers, advertisers and other third parties. Sepsis Alliance has initially reviewed these links, but the links may change at any time as Sepsis Alliance has no control over such external sites. Therefore, Sepsis Alliance does not endorse any external sites and is not responsible or liable for any content, advertising, products, or other materials that may appear on or may be available on, from or through any such external site. We encourage our users to be aware that when they click on a link to another site they should read the privacy statements of each and every web site that collects personally identifiable information. Sepsis Alliance is not responsible for the privacy practices of any other web sites that are linked to our site that may collect personally identifiable information about you. The data collection practices of those web sites are not covered by Sepsis Alliance’s Privacy Policy.

4) What options do you have regarding collection, use and distribution of your information?

If you decide that you do not want your information collected, then you can notify Sepsis Alliance of your intention. You will be asked to terminate your use of the Service. You may also ask that Sepsis Alliance delete any information that it has collected on you in the past, which it will do.

If you have any questions about this policy, please contact Sepsis Alliance at mjones@sepsis.org
